Delmenhorst, 27753 | +4917658233031

A Fullstack Developer with over 20 years of IT experience, specializing in C#, .NET Core, TypeScript, and Vue.js. Proven track record of developing end-to-end digital solutions for organizations such as sports clubs and non-profits, ranging from interactive websites to complex internal business process automations (contract, payment, and performance tracking). Seeking to leverage a deep background in both technical infrastructure and modern software development to add value to a new Fullstack Developer role in Germany.

Work Experience

Fullstack Developer & IT Consultant (Freelance)

Jan 2009 - Present

Onarim | Delmenhorst / Germany

Focused on developing custom web applications over the last six years, enabling clients to digitize business processes and increase efficiency.
